ABOUT ME

Creative Web Designer with 4+ years of experience crafting responsive, user-centered websites. Adept at turning complex ideas into clean layouts using Figma and converting designs into semantic HTML/CSS/JS code. Proven track record of improving web accessibility and user engagement through data-driven visual hierarchy.

EXPERIENCE

WEB DESIGNING — 2026 - present

Aldenaire & Partners, India

- Designed clean user interfaces for responsive websites using Figma and Adobe XD.
- Built mobile-friendly web pages with HTML, CSS, and basic JavaScript.
- Improved site load speeds by optimizing images and cleaning up code.
- Worked with clients to turn brand goals into modern website layouts.

JUNIOR DESIGNER — 2023-2025

Warner & Spencer, India

- Assisted senior architects in developing designs for mixed-use developments and public infrastructure.
- Prepared construction documents and assisted with permit applications and building code compliance.
- Coordinated with consultants to ensure design integrity and feasibility.
